

# Don't Give Up! lyrics

When you're feeling lonely

I'll be standing right beside, I'll show you no need to hide,

When you feel like there's only you

I'll be there for company, I'll be there just count on me, 'cos

You were heading in the wrong direction

Just call for me and I will give you some protection

Don't give up! Just keep on dreaming

Don't give up! Just keep believing

Just take my hand and I'll help you stand

Just hold on, baby just don't give up!

When the darkness comes at night

I'll be there right next to you, I'll be there to help you through

When it feels like you've lost all light

I'll be there still burning bright, I'll be there to help you fight, 'cos

You were heading in the wrong direction

Just call for me and I will give you some protection

Don't give up! Just keep on dreaming

Don't give up! Just keep believing

Just take my hand and I'll help you stand

Just hold on, baby.

When the winter's cold and long

When the sunshine's finally gone

I'll be there with smiles and laughter

I'll be there forever after

And when the rain starts falling

And when your heart is calling

I'll be there with strength and more

That's what friends are for

Don't give up! just keep on dreaming.

Don't give up! just keep believing

Don't give up! just keep on praying.

Don't give up! just hear me saying

Don't give up! Just keep on dreaming

Don't give up! Just keep believing

Just take my hand and I'll help you stand

Just hold on, baby.

Don't give up! Just keep on dreaming

Don't give up! Just keep believing

Just take my hand and I'll help you stand

Just hold on, baby.

Don't give up! Just keep on dreaming

Don't give up! Just keep believing

Just take my hand and I'll help you stand

Just hold on, baby, just don't give up!

DESCANT

And when the rain starts falling

And when your heart is calling

I'll be there with strength and more

That's what friends are for.
